EXPERIENCE

INERZA (FEB 2024 - NOW)

IT Infrastructure Administrator & Cybersecurity Analyst

I worked as an IT technician in the development and maintenance of IT infrastructure for public administrations, specializing in networking, systems administration, and cybersecurity. Currently, I work as a Cybersecurity Analyst in the same organization, focusing on incident response, threat analysis, and security tooling.

PWC (AUG 2023 - DEC 2023)

Workday Integrations Consultant

I worked as project support and integration developer in projects with multinational companies. I acquired technical knowledge of the Workday ERP system and communication skills in dealing with customers.

BINHEX (FEB 2023 - JUN 2023)

Python Developer
